

CRH Fundamentals for Fatality Elimination

Contained within this contractor packet is the CRH Fundamentals for Fatality Elimination Contractor Orientation video. All contractor employees must view this video prior to working on any APAC job site or facility and then annually thereafter.

The video covers the following 14 Fundamentals for Fatality Elimination:

Risk Assessment

Mobile Plant and Equipment Safety

Isolation of Operating Machinery

Machine Guarding

Confined Space Entry

Working at Heights

Lifting Operations

Underground and Overhead Utility Dangers

Use of Personal Protective Equipment

Conveyance and Storage of Materials Under Pressure

Blasting Operations

Work Zone Safety

Employee Involvement

Housekeeping (5S)

By signing this agreement the undersigned contractor company official attests that all employees have viewed the orientation video in compliance with the above referenced provisions and agrees to work by all policies and practices put forth in the orientation.
